ODP 0-1249
18 September 1980

MEMORANDUM FOR: Deputy Director for Administration

FROM: Bruce T. Johnson
                  Director of Data Processing

SUBJECT: ODP Report for Week Ending 17 September 1980

SAFE

STATINTL
STATINTL

The first prototype crypto key generator for the SAFE system was delivered to ▓▓▓ on 12 September for interface testing with the wideband communications system. ▓▓▓▓▓▓▓

Color Graphics Demonstration

STATINTL

On 15 September Messrs. ▓▓▓▓▓▓▓▓▓▓▓▓▓ of A Division gave

STATINTL

a demonstration of the CAMS Color Graphics Testbed System to

STATINTL

Messrs. ▓▓▓▓▓▓▓▓ of the DDA, ▓▓▓▓▓▓ of the DDS&T, Ms. ▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓ STATINTL

ADP Procurements

STATSPEC
STATINTL

The D/ODP concurred on a ▓▓▓ request to initiate with ▓▓▓▓▓▓▓▓▓▓, the Phase I portion of the MIDAS Program (Media and Intelligence Dissemination Automated System). An RFP for MIDAS was released in May 1980 and ▓▓▓▓▓ was selected for award.

STATINTL

STATINTL

The D/ODP also concurred on an NPIC request for a six-month extension of an on-going ▓▓▓ contract for Operational Support Planning associated with the NPIC Data System (NDS). This extension is an interim measure until a replacement contractor

STATINTL

can be obtained through a competitive procurement. Award is scheduled for February 1981. ▓▓▓▓▓

Excess Computer Equipment

STATINTL

Headquarters Regulation ▓▓▓▓▓ assigns ODP the responsibility of reassigning within the Agency ADP equipment excess to an office's needs. In this regard, the D/ODP concurred on a recommendation to reassign two excess ODP PDP 11/34 minicomputers, one to the Office of Security, Interagency Training Center, and one to the DDO, Information Management Staff. The DDO minicomputer will be returned to ODP for further reassignment by March 1981, when a replacement, currently on order, becomes available. In addition, OTD was assigned certain

STATINTL

excess PDP peripheral equipment and an excess ORD PDP 11/20 was
reassigned to OSO. ████████

COINS Long Range Plan

MS/ODP Reviewed PART III of the Community On-line
Intelligence System (COINS) Long Range Plan. Part III is the
Technical Support Plan for FY-80 through FY-86 and covers
resource requirements. The COINS Project Management Office (PMO)
plans to spend over $25 million and 230 staff-years during the
next six years on operations, procurement, and RDT&E. This
ambitious program deserves close scrutiny by ODP for future
Intelligence Community applications. It also is of great
interest as a testbed for network technology.

Parts I and II of the plan, dealing with network operations

STATINTL
STATINTL

and architecture respectively, are available from the CIA COINS
Subsystem Manager, ████████ ext. 7431. Part III is available
from the ODP front office, ext. 4011. ████████
